Summary

- Half day course
- **FREE** with any of the HSE / OFSTED approved courses

Course Description

This course demonstrates how to administer emergency oxygen to a patient with serious or life-threatening illness or injury. Receiving adequate oxygen is crucial, especially after a serious injury or illness. You can decrease patient stress and support the respiratory system by administering emergency oxygen.

Skills:

- Become familiar with emergency oxygen units
- Handling of an oxygen cylinder carefully
- Use of emergency oxygen for responsive patient
- Use of emergency oxygen for a nonresponsive breathing patient
- Use of emergency oxygen for an unconscious, non-breathing patient
- Monitoring of oxygen unit pressure gauge
