Summary

- 2 day course
- HSE Approved
- Certification valid for 3 years
- **FREE** AED use and Emergency Oxygen use

Course Description

If you hold a current CPR or First Aid certification from another training organisation, then you are eligible to attend the Refresher course, plus you will receive Automated External Defibrillator (AED) training at the same time when you refresh your skills.

The course is a Health and Safety Executive (HSE) approved first aid course for the purpose of meeting the Health and Safety (First Aid) Regulations 1981. This programme meets the statutory needs of employers in England, Scotland, Wales and Northern Ireland needing at least one First Aider on the premises.

The First Aid at Work (Great Britain) course is customised to UK Resuscitation Council basic life support protocols and nationally accepted first aid protocols. Modules on Caring for Specific Illnesses and Injuries, and First Aid in the Workplace compliment these.

First Aid at Work (Great Britain) courses can only be conducted at authorised Workplace Facilities or alternatively can be arranged within your workplace.
